

## **Bytewise Announces Kurschat GmbH as German Partner**

October 15, 2010  
Columbus Georgia, USA

Bytewise Measurement Systems, a global leader in on-line profile measurement systems, is pleased to announce that Kurschat GmbH has joined its team as Technical Sales Representative for Germany, Austria, and Switzerland.

Kurschat GmbH (Buchholz, Germany) manufactures industrial measurement systems, and will sell and support Profile360® measurement systems and CrossCheck® sensors manufactured by Bytewise. Kurschat will also develop custom measurement systems using Bytewise technology.

Profile360 is an on-line profile measurement system for rubber and plastic extrusions, roll-formed metal profiles, and all types of continuously-produced profiles. CrossCheck is a family of laser line sensors used for continuous on-line monitoring and discrete measurement in industrial operations.
